Get more people to your Venue by listing your events here for FREE!

The UK Social Club Events Calendar is one of our long awaited new features.

Registered users can log-in and list their Events or Gatherings for all to see. This is fast proving to be a great way for some to advertise their events for free and increase their attendance figures!

Anyone can view the events calendar's listings and see the further information, such as Date & Times of functions, Event details, Venue details & also have the ability to search for similar listings.

Only registered users may add a listing and only creators of the listings may edit them.
